james hamilton group

## j h print & packaging

In 1923 James Hamilton founded a packaging company servicing the local food and textile industry. He built a reputation for quality products and a reliable service – an ideal still very much at the heart of the business today.

Now in its 4th generation the James Hamilton Group has grown significantly to encompass J.H. Print & Packaging, Craigavon Office Supplies, J. H. Office Supplies, Hy-pro and J. H. Bearings & Transmissions.

Although well established J. H. Print & Packaging prides itself on its individual customer contact and prompt delivery service responding quickly and efficiently to all our customer needs.

J. H. Print & Packaging now stock over 1,000 lines covering items for Bakeries, Butchers, Café & Sandwich Bars and Salad production both for retail and wholesale use. Many lines are exclusive to us with some designed for specific individual needs, however we are continually sourcing new products should we not have the correct item for your needs.

We thank you for your interest in this latest catalogue and we hope it gives you a flavour of the various ranges we carry.

Today, over 70 years on, we are still passionate about what we do and we look forward to giving the best possible service to our existing customers and welcoming new clients both near and far.

## Printing Department

### Delivery, Invoice Books and Labels

# Cleaning & Hygiene

## Bag-in box skin care system

- Appropriate for use in hygiene sensitive areas due to the sealed bags and individual pumps that enhance germ free application.
- Greater convenience due to 800ml standard refill boxes which mean dispensers are easy to load and maintain.
- No leaks and no mess means a tidy appearance and sanitary environment.
- Portion Control - the easily adjustable interior dosage control mechanism allows for more cost efficiencies and less wastage of soap.

Available in:

- Anti-bactericidal hand soap.
- Luxury pink perfumed hand soap.

### Pink perfumed hand-soap

- A pearlised lotion soap for washing of hands.
- A pleasantly fragranced hand soap that may be used in all refillable soap dispensers.
- Formulated to facilitate easy filling with no leakage.

### Bactericidal hand soap

A pearlised, non perfumed bactericidal lotion soap

- Ideal for use in all hospitals, food plants and other hygiene sensitive areas.

## KITCHENMASTER.

- Convenient for use in all refillable soap dispensers with no leakage.

### Hand Sanitiser

- A bactericidal free rinsing hand sanitiser.
- Ideal for use in all high risk food operations.
- Easy to use - rub on hands and leave to air dry.

## Cleaning Chemicals

### Washroom Maintainer

- A multi-purpose detergent that is suitable for use on most surfaces including floors, sinks, mirrors or toilets.
- Contains a biocide which disinfects leaving a sanitary environment.
- Refreshing fragrance to deodorise.
- Excellent at removing limescale to leave surfaces sparkling.

### Bacterial Hard Surface Cleaner

- A mildly alkaline cleaner with a biocide to give clean sanitised surfaces.
- Suitable for all surface cleaning, especially food preparation areas.
- Excellent degreasing properties.

### Citrus hand soap

- A yellow pearlised lotion hand soap.
- Fresh citrus fragrance.
- Economical in use.

### Heavy Duty Degreasant Powder

- A yellow heavy duty degreasant powder which is ideal for fat fryer degreasing.
- May also be used for floor cleaning.
- Effective in all water hardness conditions.
- Safe for use on aluminium.

### Toilet Cleaner

- A blue hydrochloric acid based toilet cleaner which gives excellent descaling.
- Disinfects and deodorises for maintenance of toilets and urinals.

- Formulated to be highly viscous which gives more clingability and greater contact time.

### Sanitising Powder

- A pink sanitising powder for use on all food preparation surfaces and equipment.
- Gives excellent bactericidal properties.
- Suitable for use in all water hardness conditions.
- May also be used as a destainer.

### Spray Oven Cleaner

- A caustic-based high performance oven cleaner for removing carbonised fats and grease from ovens and grills.
- Can be used neat or diluted.
- Convenient and safe to use through the Kitchenmaster

- Flexi-Spray.
- Also available is our concentrated, high performance, oven gel 350.

### Machine Dishwash Detergents

- A range of machine dishwash detergents that are specially formulated to content with soft, medium and hard water conditions.

### Rinse Aids

- A liquid rinse additive for use in Automatic Dishwashing Machines.

Conventional Toilet Rolls

Centrefeed Rolls 1, 2, 3 ply
